**Investment Performance as of 05/31/2024**

*Performance data quoted represents past performance and is not a guarantee or prediction of future results. The investment return and principal value of an investment will fluctuate so that, when redeemed, shares/units may be worth more or less than their original cost. Current performance may be lower or higher than performance data shown. Performance for a share class before its inception is derived from the historical performance of the oldest share class. If the newer fund has lower expenses, the extended performance is not adjusted for the lower expenses; had it, returns would have been higher. For performance data current to the most recent month-end, please visit [www.DAP401k.com](http://www.DAP401k.com).*

*Carefully consider the investment option's objectives, risks, fees and expenses. Contact us for a prospectus, summary prospectus for SEC registered products or disclosure document for unregistered products, if available, containing this information. Read each carefully before investing.*

*You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.*

These returns and fund operating expenses are expressed as percentages. 3, 5 and 10 Year/Since Inception returns shown are annualized. For 10 Year/Since Inception, if the fund was not in existence for 10 years, returns shown are since inception. If the fund is less than one year old, returns are not annualized.

Performance returns reflect a deduction for fund operating expenses. For variable annuity options, returns also reflect a Variable Asset Charge or a Mortality and Expense Risk Charge, depending on the version of the group annuity contract, of 0.30%, and an average Contract Maintenance Charge ("CMC") or Participant Account Charge, depending on the version of your group annuity contract, of 0.02%. Your Plan may have a higher, lower, or no CMC or Participant Account Charge. Additionally, your Plan may assess a plan administrative fee that was not deducted in the returns shown above.

Funds that do not have a ticker symbol may be exempt from SEC registration or part of a group annuity contract.

The net expense ratio is less applicable fee waivers or expense reimbursements the investment adviser and/or administrator may have agreed upon, either voluntary or by contractual agreement; the gross expense ratio is not. Voluntary fee waivers and reimbursements may be modified or terminated at any time. Additional information can be found in the Fund's prospectus and/or other disclosure documents regarding effective dates and/or if waivers or reimbursements are voluntary or by contractual agreement. Absent waivers or reimbursements, the performance would have been lower.

<sup>1</sup> \* Performance returns were not available at the time of production. Performance returns will be published once the information becomes available.

<sup>2</sup> The 7-day current yield more closely reflects the current earnings of the money market portfolio/fund than the total return quotation.

<sup>3</sup> The date in the name of the target date fund is the assumed date of retirement. The asset allocation becomes more conservative as the fund nears the target retirement date; however, the principal value of the fund is never guaranteed.

<sup>4</sup> Benchmark index returns are supplied by Morningstar, Inc. There may be another benchmark that is more specific to each of the funds listed under the broad asset class. Please refer to the fund's prospectus for more specific information as to the fund's actual benchmark index.

<sup>5</sup> A benchmark index is not actively managed, does not have a defined investment objective, and does not incur fees or expenses. You cannot invest directly in a benchmark index.

<sup>12</sup>*Bloomberg Barclays Capital U.S. Aggregate Bond Index is an unmanaged index representative of the broad bond market and is composed of government and corporate bonds, mortgage-backed bonds and asset-backed bonds.*

<sup>13</sup>*The Fund has a Contractual Expense Ratio Waiver in the amount of .07% which expires on 30-SEP-2024.*

<sup>14</sup>*The Fund has a Contractual Other Fee Waiver in the amount of .03% which expires on 29-DEC-2024.*

<sup>15</sup>*Asset allocation funds may be subject to operating expenses for the fund and for each underlying fund.*

<sup>16</sup>*A collective trust stable value fund is offered by a bank or trust company. These investments have interest rate, inflation and credit risks associated with the underlying assets owned by the portfolio or fund. The strength of the wrap contracts, which provide book-value guarantees associated with a fund, depends on the financial strength of the financial institutions issuing the contracts.*

<sup>17</sup>*Bond prices generally fall when interest rates rise (and vice versa) and are subject to risks including changes in credit quality, market valuations, inflation, liquidity, and default. High-yield bonds have a greater risk of default.*

<sup>18</sup>*Foreign securities involve risks, such as currency fluctuations, economic changes and political developments. These risks may be heightened in emerging markets, which may also experience liquidity risk.*

<sup>19</sup>*Securities of small and mid-size companies may be more volatile than those of larger, more established companies.*

<sup>20</sup>*The interest from Treasury inflation-protected securities (TIPS) is adjusted periodically according to the Consumer Price Index. The return from TIPS may understate the actual rate of inflation due to changes in the bond's underlying price.*

<sup>21</sup>*A stable value fund is not federally guaranteed and may lose value. It has interest rate, inflation and credit risks associated with the underlying assets owned by the fund. A guaranteed separate account stable value fund is offered through an insurance company group annuity contract or funding agreement. The strength of the guarantee is dependent on the financial strength of the insurance company issuing the contracts.*
