Special Note Regarding Empower Retirement Advisory Services

If you are participating in Empower Retirement Advisory Services (My Total Retirement, Online Advice), you will be temporarily unable to make changes to your account while the service analyzes your Plan's new investment option lineup. The inaccessibility periods will tentatively occur between May 12, 2021 and May 26, 2021. A notification of inaccessibility will appear when you enter the Empower Retirement

Advisory Services section of the website during these times. You will still be able to view your account balance.

If you are comfortable with the investment option changes, you do not need to take any action. If you are not comfortable with the investment option changes, you have the option to opt-out of Empower Retirement Advisory Services prior to the inaccessibility period and change your future contribution allocations or move your current account balance to other available investment options.

Please consider the investment objectives, risks, fees and expenses carefully before investing. The prospectus contains this and other information about the investment options. Depending on the investment options offered in your plan, your registered representative can provide you with prospectuses for any mutual funds; any applicable annuity contracts and the annuity's underlying funds; and/or disclosure documents for investment options exempt from SEC registration. Please read them carefully before investing.

Tier I - Asset Allocation Funds - Currently not available.

Vanguard Instl Trgt Retire 2015 Instl	Investment Objective & Strategy
	The investment seeks to provide capital appreciation and current income consistent with its current asset allocation. The fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of 2015 (the target year). The fund's asset allocation will become more conservative over time, meaning that the percentage of assets allocated to stocks will decrease while the percentage of assets allocated to bonds and other fixed income investments will increase.
Fund Investment Expense as of 3/31/2021	Risk and Return Profile
Gross: 0.09% Net: 0.09%	This investment option may be most appropriate for someone willing to take some risk to achieve higher potential returns but also seeking income as a secondary objective. The investor may be in or approaching retirement or may prefer to take less risk than other investors. Investors choosing this option want to invest in a mixture of diverse investments suiting their needs but may not have the time, desire, or knowledge to select and manage their own portfolios. The date in a target date fund's name represents an approximate date when an investor is expected to retire (which is assumed to be at age 65) and/or begins withdrawing money. The principal value of the funds is not guaranteed at any time, including the target date. Asset allocation and balanced investment options and models are subject to the risks of the underlying funds, which can be a mix of stocks/stock funds and bonds/bond funds.
